&  
The Canadian Society for Civil Engineering

**PUBLIC PRIVATE PARTNERSHIPS (P3's)**

IN THE DELIVERY OF

**INFRASTRUCTURE PROJECTS**

**"International & Regional PPP Experience"**

The international and regional P3 market is healthy and active. Canada's list of completed and projects in the pipeline continues to grow, while in the US momentum and long term deal flow continue to build as public sector officials embrace the P3 concept.

In the Caribbean Region countries such as Jamaica and Trinidad are adopting P3 project delivery as needed transport and social infrastructure projects are prioritized; the debt markets continue to provide a greater diversity of funding sources; and infrastructure attains greater public visibility.

A panel of leading infrastructure investors, advisors and developers will discuss the state of the industry internationally and in the region, outlook and deal flow, as well as questions including:

- *What prominent PPP's are expected this year and what is the outlook on future deals?*
- *Have the factors driving P3 deal flow changed?*
- *What lessons can be learned from recent deals?*

**PANEL CHAIR:**

**David Pratt**

*International Affairs Officer  
Latin America and the Caribbean  
Canadian Society for Civil Engineering*

<b>Nuria Haltiwanger</b> <i>Chief Executive Officer ACS Infrastructure</i>	<b>Jeffrey Plant</b> <i>VP - Civil Infrastructure Infrastructure Ontario</i>	<b>Mathew Kattipuram</b> <i>Senior Vice President AECOM Group Inc.</i>	<b>Ricardo Munroe</b> <i>Manager - PPP Unit Development Bank of Jamaica</i>
